[Despatches to the Evening Times.]

Significant Extract from a Mobile Paper—Bragg Reinforces Lee's Army—Lee Threatens to Resign if his son is Hung—Active Movement of Burnside's Army—The Governor of Ohio Goes to Washington—General Lee Protests against Retaliation.

The Mobile News of the 3d says.

"We have a multitude of reports horribly detrimental to the character of the patriotism of the people in many places in Alabama and Mississippi, some of them for disgraceful to publish. A portion of our people have gone stark mad. They are bastard Southerners and recreant Confederates.

The Chief of the Choctaws has gone to Richmond.

An army 25,000 strong is still at Meridian, ready to go to Mobile or East, as circumstances may require.

Bragg is at Chattanooga and a portion of his force is at Rome, Ga.

Extensive preparations are being made to finish the fortifications at Mobile.

NEW YORK, 11th.

Thermometer 90 in the shade, with upward tendency.

The Herald's Washington despatch says:

To-day letters were received here from Captain Baldwin of the 2d Wisconsin, and other officers in the Libby Prison at Richmond, written on the 5th inst. Arrangements have been made to supply them with money, clothing, &c.

Lieut Fraley Lieutenant Colonel Nichols and two Sergeants of the rebel army were captured near Brentsville, Prince William county, Va., by our cavalry, and lodged in the Old Capital Prison. This is the 3d time Nichols has been in our hands, he having been twice exchanged.

Governor Pierpont of Virginia has established himself at Alexandria, and for the present the affairs of the State will be administered in that city.

The Tribune has the following:

Headquarters Army of the Potomac,
August 9th.

Lee has been reinforced by the division under Polk from Bragg's army, and is reported to have sent a division to the aid of Charleston.—None of his infantry are thought now to be on this side of the Rapidan, and his cavalry are lessening the number of their pickets along the Rappahannock towards Falmouth, finding that our cavalry brigade brought in on Friday 87 persons from between the pines and Stafford Court House. General Patrick, Provost Marshal of the army considers them harmless, and discharged them on their taking the oath not to render aid to the enemy.

Our cavalry have captured 20 of Mosby's men.

The Herald has the following—

Fort Blunt, I. T., 3d.

A battle is imminent at this point. Since our victory at Honey Springs on the 17th ult., the rebels have been reinforced by the returning of Cooper's force of 4000 augumented by Cabell's Arkansas brigade, 2500 strong, and Bailey's Texas brigade about 500 strong. The Union force here is but 2500 efficient men. The 83d Kansas infantry and a battalion of the 6th Kansas cavalry, 800 men, are making forced marches from Fort Scott, and are expected here on Thursday.

About Sunday next, Gen Blunt will cross over and attack them. The General says he will make it a fight or a foot race to attack us, our safety. We can't stay here without being surrounded, and we cannot retreat without disaster. We believe in Blunt and victory.

On Friday there were indications that the enemy contemplated making a demonstration near Sulphur Springs. General Kilpatrick's division of cavalry was moved up to that point, but no collision occurred. Very little now disturbs the monotonous routine of picket duty, and everything throughout the entire army is stagnant.

Brigadier General Custar, commanding a brigade and/or General Pleasanton, with a small force of cavalry, on Saturday came up with Mosby's guerillas, commanded by the notorious partisan chief in person. They fled before our cavalry, leaving 12 prisoners in our hands, who were turned over to General Pleasanton.

General Custar was within an ace of capturing Mosby himself, but the guerilla escaped under cover of a dense wood, when our forces were close upon his heels. General Custar feels confident that ere long the whole of Mosby's gang, including their chief, will fall into our hands.

A portion of Longstreet's corps has occupied Fredericksburg, but the indications are that no attempt will be made by the enemy to hold that point. The rails of the Fredericksburg and Aquia Creek Railroad have been all torn up by the rebels and sent to Richmond, together with every other species of property in that section available for military purposes. The railroad bridges, depot, &c., have been burned, and the whole country between the Rappahannock and the Potomac is swept of everything.

NEW YORK, 11th.

The Tribune's Washington despatch says:—It is thought here that Captains Sawyer and Flynn, condemned to death by the rebels, will be executed. Upon receiving official notice of their death General Lee and Captain Winder, held as hostages, will surely meet with a similar fate. On this point the decision of the Government is fixed and unalterable.

Catherine Burnham, formerly a slave of Curtis Lee, but now a free woman, arrived in Washington from Richmond today. She has been in the family of Curtis Lee, the eldest son of Gen. Lee, and now on the military staff of Jeff Davis. This woman represents that there is just now in the Lee family at Richmond great excitement over the hanging of Sawyer and Flynn by the rebel government. The people all demand that the sentence shall be carried out—shall be executed next Friday—while General Lee, whose son, Fitz Hugh Lee, is held by our government as a hostage for Sawyer and Flynn, demands that Lee shall prevent their execution, and threatens if his son is hung by us in retaliation that he will resign his position in the rebel army, and leave the Confederacy in disgust.

The following examining Surgeons were appointed today for Maine: Dr John N Houghton of Phillips; Dr Moses D Wilson, Lincoln; Dr Edward N Mayo, Boulton; Dr S Whitmore of Gardiner; Dr Nathaniel Pease, Bridgton; Dr Thomas H Owen, Bath.

NEW YORK, 11th.

At Cairo letter of the 4th inst., to the Tribune, states that an expedition is fitting out and is partly on the way, consisting of cavalry, infantry and artillery, from Cape Girardeau and some other ports, for Little Rock, Ark. It is highly probable that it will terminate in taking possession not only of the capital but of all the North part of the State.

Since Cooper's defeat by General Blunt, the rebels have no organized army left except the defeated and broken one under Holmes, who, hanging around Helena, is preparing himself for being totally finished.

Large reinforcements were reaching Helena at last accounts.

CINCINNATI, 11th.

The Commercial has a special despatch from Lexington, which says reports from the front indicate that all is quiet on the border.

Refugees from East Tennessee report that Forest's mounted force is to rendezvous at Kingston or Concord. A rebel brigade under Armstrong has arrived at the former place.

General Burnside arrived in Lexington yesterday. The movement of troops in that direction is very active.

The Commercial also has the following from Columbus—

Governor Tod leaves for Washington today.

An important meeting of disguished personages will come off in that city, within the next ten days, at which grave questions bearing on the present aspect of the rebellion will be discussed.

The draft is postponed until the Governor returns.

NEW YORK, 10th—11 P M

The heat continues intense; several cases of sun stroke are reported today. The thermometer ranged all the morning at 100 in the shade.—Seven deaths from heat in Brooklyn occurred yesterday.

The large barrack building at Staten Island was burned last night.

A Washington letter states that a letter has been received in the city by way of a flag of truce stating that Jeff Davis continues ill in Richmond and doubts were entertained of his recovery. He has been ill more or less for several months.

Information has also been received here to the effect that Gen Lee had addressed a letter to Jeff Davis, calling upon him not to inaugurate the work of retaliation by hanging the two federal officers now confined in Richmond, as the federal authorities had declared their intention to hang, in return, his son.

Editorial Correspondence of the Whig

The Portland Convention and its Candidate.

CAMDEN, Aug. 9th.

The proceedings of the Democratic State Convention, held last week at Portland, indicate so plainly that no man can mistake, the position that the party in hereafter to assume under its present leadership—viz one of unreserved opposition to the war, and consequently of aid and comfort to the rebellion. Jeff Davis himself could scarcely ask a northern convention of his friends to take a stronger position in favor of the "Confederate" cause than that taken by the caucus which again nominated Elon Bradbury for Governor of a loyal State. The National Government in its entire war policy, is assailed with bitter and vindictive misrepresentation in all the speeches, resolutions and letters, made, adopted and read in that Convention — Not a line or a word is to be found in the platform, or in Mr Bradbury's letter, condemnatory of the rebellion or in favor of prosecuting the war against the traitors who would overturn the government. *Not a word in favor of prosecuting the war against the rebels in arms*, do we hear from these men whose mouths are full of professions of "maintaining the Constitution" and "restoring the Union." The whole burden of their resolutions and speeches, and of the letter of their candidate, consists of "the encroachments of centralized power" and the "infringements upon the rights of the States, and upon the liberty of the citizen," by the administration, in its efforts to punish the rebels and to arrest and imprison northern traitors. The platform,—cunningly devised to present to the people an alarming but utterly groundless idea of an intended subversion of civil liberty by the President—intentionally, and carefully excludes any word which might be construed into a commital of the party in favor of a prosecution of the war. Mr Bradbury says, "To uphold the government, to maintain the constitution, to restore the Union as it was, is the first duty of every citizen." But how does he propose to uphold the government, when rebel armies are yet thundering almost at the very gates of the capitol, and threatening the entire subversion of that government the moment our military strength shall be reduced, or our military operations abandoned? He proposes to do it by *stopping all reinforcements to our armies*—obstructing the execution of the draft—WITHDRAWING THE TROOPS OF THE DIFFERENT STATES FROM THE NATIONAL ARMIES! He proposes to uphold the government by utterly paralyzing its military arm, and in the midst of the war, when the life of that government is in the most imminent peril, arousing the fears, the passions and the prejudices of the people, not against the enemies of the government, but against the government itself. What more, we repeat, could Jeff Davis himself ask? If the "democratic party" could carry the northern States upon the platform of this Maine Convention of secession-sympathizers, what would our "government" be worth? Not a day's purchase. The war would stop—the rebels would be triumphant—the "Union" would be laughed—the "Constitution" would have no country upon which to shed its blessings.

Is there a truly loyal man who will in a dead-

crisis like the present, stay the arm of the government by insisting upon his own "constitutional objections" to the extent of obstructing the reinforcement of armies and the furnishing of supplies, and even withdrawing troops from the field? The very saint and martyr of northern secession, who is endorsed by the democratic convention, Vallandigham himself, is inexpungably on record against so disloyal and unpatriotic a course as this. In the year 1847, when the country was involved in a war, not a tithe one like this, wherein the very existence of the nation is at stake, but a war of conquest only, against poor and weak Mexico, Mr Vallandigham, as chairman of a committee on resolutions in a democratic convention at Dayton, Ohio, introduced and advocated the following resolution, which was adopted without opposition:

Resolved, That whatever opinions might have been entertained of the origin, necessity or justness by the tories of the revolutionary war, by the federalists of the late war, with England, or by the Whigs and abolitionists of the present war with Mexico, the fact of their country's being engaged in such war ought to have been sufficient to them and to *have precluded debate on that subject till a successful termination of the war*; and that, in the meantime, the patriot could have experienced no difficulty in recognizing his place on the side of his country, and could never have been induced to yield either physical or moral aid to the enemy.

The spirit of this resolution was fully adopted by the entire democratic party of that day, embracing Mr. Bradbury himself and every member of the recent Portland Convention who was then on the stage of action. Can Mr. Vallandigham or Mr. Bradbury give any valid reason why the same doctrine is not now as vital—nay ten times as vital—to the salvation of the government and the country,—and why the rule of patriotism then prescribed by them should not now restrain from the active measures of opposition to the government which they are pursuing? The necessity for forbearance is certainly stronger than it was then.

We have referred but generally to the platform of the Portland Convention and to Mr. Bradbury's letter. It is unnecessary that we should do more. The plain simple issue for the coming election is placed before the people in the fact that the resolutions and letter simply and only propose *opposition to all the principal measures of the administration*—that they have not one word in condemnation of the rebellion—and that they contain not a single syllable in favor of prosecuting the war against southern traitors in ANY mode or manner whatever. Further than this Mr. Bradbury's personal and confidential friend, Gen. Anderson of Portland, openly and distinctly, in full Convention, and without a single hap of denial, "touched for Mr Bradbury's being opposed to the war, WITHOUT QUALIFICATION," and furthermore said that he (Bradbury) would, if elected Governor of Maine, act in conjunction with Seymour and other democratic Governors, and in unison with the Democratic Convention and its candidate? Do the people need any more light, to enable them to determine where patriots should go in the approaching State election? It is—for the Rebellion or for the Country! In the language of the Union State Convention there are but two parties—patriots and traitors.

So far as a man's vote goes he will in effect act for the country or against it. The man who votes for the Union candidate, Samuel Cony, will certainly vote for the party which is in favor of suppressing the rebellion—while he who votes for Mr. Bradbury will, (whether he *intends* it or not,) as certainly vote for yielding to the rebels, overturning the government, and destroying the Republic—and with it *every vestige* of the "civil liberty" for the loss of which the democratic leaders pretend to be in such great fear. Let the patriotic voter ponder the position well, and listen to no artful and deceptive appeals of traitorous party leaders. Let him go for his *country*, not for party.

A RAILROAD COMPANY SUED FOR ONE CENT. In Philadelphia a few days since, a suit was instituted before an Alderman for the recovery of one cent. The circumstances were as follows — A gentleman was riding in a horse car and the fare to be paid was four cents. He handed the conductor a five-cent note, and the conductor informed him that he had no cent to give, and requested the passenger to take the note back and give him (the conductor) four cents. The passenger refused to take it back or hand over the pennies. The conductor then put the money in his pocket and the next day the passenger sued the company for the one cent due him, and the Alderman decided that he was entitled to it. The President of the company paid the cent and costs.

THE WANING REBELLION. The New York Tribune publishes a map showing the progress that has been made in recovering the communities claimed two years ago by the rebels, and which progress is thus summed up:

"Thus the rebellion looks on land, shorn of two-thirds of its claimed territory, and five-twelfths of its population; reduced from 1,222,000 to 385,000 square miles, and from twelve and a half millions to a little more than five millions of people; and of these five millions nearly one-half are slaves. At sea, the kind favor of Great Britain gives the Confederacy a few pirate vessels; but the last hope of creating or even hoping a navy worth the name has vanished—gone with the Merrimac, the Fingal and the gunboats of the Mississippi."

Vessels arriving loaded with petroleum in the harbor of Cleveland, Ohio, to sail direct for Europe. Parties in that city are making arrangements to establish an "Oil Line" of vessels between Cleveland and Europe, with a view to avoid the expense and losses consequent upon transhipment on other routes.

A LARGE CORNFIELD. An officer of one of the Illinois regiments in the Army of the West, says "in our expedition along the Yazoo river bottoms, we passed through a cornfield thirty miles in extent. The corn exceeded anything I have ever seen in Illinois."

An official order from Lieut. Gen. Pemberton rescinds the furloughs of the paroled prisoners from Vicksburg, as "of too great duration in the present condition of the country." This means that those paroled prisoners are to be used by the confederates in violation of the rules of civilized warfare.

Special despatch to the Whig and Courier

BELFAST, Aug. 11th.

The draft for the 5th District was completed to-day. Whole number drafted—three thousand two hundred and eighty-five. A. D. B

DRAFTING. On Friday next, at nine o'clock, A. M., at City Hall, a draft will be made for the following sub-districts:

13th—Clifton, Eddington, Bradley—quota 67.

14th—Milford, Greenbush, Greenfield, Township No 1 quota 61.

15th—Springfield, Lee, Carroll, Prentiss, Webster, Plantations No 3, 4, and 5, Range I quota 78.

16th—Dexter, Corinna—quota 114.

17th—Exeter, Garmis—quota 95.

MAJOR GERRISH, a paymaster supposed to have been lost at the burning of the steamer Ruth, is safe. He was not in season to go on the boat.

Upon the recommendation of the Warden and Inspectors of the State Prison the Governor and Council have authorized the erection of an addition to the carriage shop at the Prison to be forty feet long and built of wood. This addition is much needed and the new Warden hopes to make this branch of business successful and prosperous.

READING FOR THE SOLDIERS. The friends of the First Maine Heavy Artillery (formerly 18th) are making up a box of books and magazines to be sent to the soldiers of this regiment. There is room for a few more in the box, and those who would like to contribute to this praiseworthy object will confer a favor by leaving their contributions at Duren's Bookstore, or at Bradbury's Drug Store.

RUNAWAY. Monday forenoon the son of Mr. Ephraim G Thurston, aged about ten years, was driving his father's horse into town, and stopped at "Swett's tavern" to water the animal. Here he was joined by the son of Mr. Jas. N. Chandler, aged about five years, when the reins accidentally dropping upon the horse's heels, the animal started off at a break-neck speed, both boys clinging to the dash board for their lives. The frightened animal made direct for High St., down which he dashed at a frightful pace. As he crossed the gutter on the lower side of Main Street, the binder wheels and body became detached from the fore wheels, and the boys were thrown headforemost with terrible violence some 20 or 30 feet. No one who should happen within the top of his skull, and both were literally covered with blood. But strange to say, notwithstanding all their cuts and bruises and with their flesh and bones absolutely skinned in a great many places, both speedily recovered so as to converse intelligently and freely. Both of the boys bore their serious injuries with a heroic fortitude far beyond their years.

A VERY REMARKABLE AFFAIR. What a remarkable fact it was that Hon. Elon Bradbury should happen to write a strictly private and confidential letter to General Anderson, and that General Anderson should, in the strictest confidence, tell of it to a few friends, and that these to their friends, and that it should get into the confidential ear of the convention, and that as reading should be called for by a vote, and that General Anderson should be so untrue to his confidential correspondent as to make public use of a private letter received under a strict injunction of confidence, and that this letter, thus accidentally written in confidence to a confidential friend, *with no thought of exposure*, should be the very thing to remove all stain and reproach from the writer—and secure his unanimous nomination; should be the very thing, in the estimation of Virgil Delphini Parris, to change the spots of the leopard and the skin of the Ethiopean! Singular, very, and marvellous withal! But how disappointed, chagrined and mortified, (not to say offended,) at such a breach of confidence, will Mr. Bradbury feel, when he sees the letter in print, so contrary to his intention!

Our Copperhead friends must reckon largely upon the gullibility of the people if they expect them to receive without discount all their tricks of legerdemain.—Portland Press.

We understand, that a gentleman who is an especial friend of Dion's, stated that Dion had written a letter to be *read at the Convention*.

Miss Helen Weston, an actress of some distinction, and a few years since well known to the friends of the drama in this city, is reported dead.

SAD DEATH. Sailing Master William L Hand, of Portland, was recently lost from the United States gunboat Covington, on the Mississippi.

DESERTERS. Eight of the substitutes for conscripts on Mackie's Island, deserted on Saturday night, and attempted to make their escape by swimming to the main land, about three-fourths of a mile. Five of them succeeded in making their escape, two it is believed, were drowned, and one was picked up in the road in an exhausted condition, minus nearly all his clothing and $860, which he said he had when he started. He was a Corsican. The sponge robbed their tantalizers before they deserted.

A little child of Mr Warner's, while jumping and playing on a bed, yesterday, next to an open window, fell out of the window to the ground, a distance of sixteen feet, and what is most remarkable, suffered no injury except a scratch.

SHOT AND SHELL. They have a very pleasant way of shooting from Fort Scammel, Portland. A very slight variation pitches the shot in among parties sailing in the harbor.

PERSONAL. Major General Oliver O Howard passed through this city yesterday, direct from the army of Potomac, on his way to Augusta on a short furlough. He was attended by his brother, who is a member of his staff.—Press.

An attempt was made by a steamer, showing French colors, on Tuesday of last week, to overhaul the steamer Argo on her passage from New York to Hilton Head, but the Yankee craft was too fast for the pirate.

GUY R. PHELPS, Secretary.

Hartford, February 1st, 1863.

The losses during the year just (as was anticipated,) have been unusually large, amounting to three hundred and sixty three thousand four hundred and eighty dollars, on one hundred and forty four lives. Though the mortality is greater than last year, it does not exceed the rates of the table upon which the premiums are predicated and as in last year's it unless the interest on the investment exceed the losses.

Eighty-eight, seven born less than slain in the field, or subsequently died of their wounds, and seven have died of sickness in camp, or after being discharged; but the extra war premiums have exceeded the losses by such policies.

Of the insured who died during the year, 15 had paid but one premium, 17, two, 12, three, 7, four, 5, five, 8, six, 5, eight, 7, nine, 2, ten, 4 eleven, 12 twelve, 12, thirteen, 16, fourteen, and 15, fifteen premiums each.

Three millions ninety three thousand four hundred and eighty-one dollars have been paid to the families and creditors of the deceased, since the organization of the Company, and over two millions and one hundred and seventy-two thousand dollars have been returned to policy holders in dividends. *Five hundred and sixteen thousand nine hundred and eighty-eight dollars have been paid in dividends during the year past.* These disbursements for dividends will indicate what this accumulation would have been now, had this Company, like so many others, paid no dividends except upon the Capital of the insured.

This Company, organized in 1846, on a system entirely *Mutual*, furnishes Insurance in all the various forms, and to meet all the various contingencies for which *Life Insurance* is desired, at the actual cost to the policy-holders.

There is no Stock or Guarantee Fund to absorb the profits, but all the surplus is annually credited to the policy holders as dividends in proportion to the amount of the premium they pay, and may be appropriated to the payment of renewal premiums, after the first four years. This is the only Company in the United States which allows a dividend upon every payment of premium.

The Directors have ordered full dividend of 1860 to be paid during the current year, as the reserves become due and are paid—by reduction of the premium of those who have paid all cash, or cancelling the notes of those who have given notes for one half

The credit or note system as adopted by this Company, is liable *to be misunderstood*; being often misrepresented by persons acting for, or interested in Companies requiring all cash payments. It is frequently represented that in a series of years there will accumulate a large amount of premium notes as a debt against the policy to be handed over to heirs in payment of the policy or its lien of money. Prejudice or the most ignorance only could suggest such an interpretation as applicable to this Company, as the annual payments of dividends adopted by this Company, applied in payment of the notes annually given for premiums, consequently the accumulation can never exceed four notes, and to pay for the insurance they will, in a correspondingly short time, be extinguished. The insured, however, are not required to give a note, but can, if they prefer, pay cash, in which case the dividends will be applied to a reduction of their premiums, which, if the premium income of the Company is continued, will reduce the annual payments to nearly or quite one-half, after the fourth payment. See the report of the Massachusetts Commissioner for 1861, for complete explanation of the system adopted by this Company, as the most equitable system of Life Insurance.

POOR RICHARD'S EYE AND EAR WATER.

This is the Best Preparation in the World!

READER, are you aware that every time you think, speak or act, you draw on your eyes for strength to do so? Now you are debtor to them, and if they have not arrested your body and shut it up in the prison of disease remember they must assuredly will if you do not satisfy their claim (which is a small one) for all the services they render to you most manly. They are crying to you for help every blood streak is a rose. Hear their cry, and save you talk by saving them. Give them a drink o POOR RICHARD'S EYE WATER, Morning and Night. This is all they ask, and they will positively keep your body out of the prison house of disease. They do not want to lose time in explanations. Try them and prove them Scientific persevarance, Deafness can be cured and prevented—

A Remarkable Cure in Bangor.

I, W. P. PRITCHARD, do certify that my wife Esther, 84, has had Weak Eyes from childhood, caused by Ophthalmia. One year since a lump appeared on the back of her eye. It increased to the size of a large pea, occasioning somewhat alarmed about the progress it was making I took my wife Mrs. P. to C. P. BROWN, at the Exchange. She told me she could remove it and rather strengthen her eyes. Mrs. B applied her medicine as she directed in the evening, and at nine o'clock the lump was gone. We could see no more of it. My wife can now see people walking on the other side of the street, which she could never do before. She has always had headache when riding in a carriage. Yesterday, when riding in a carriage, she had no return of headache. My own eyes were tested two or three times by Mrs. Brown. I find them much strengthened. W. H. PRITCHARD.

American & Foreign Patents.

R. H. EDDY,
SOLICITOR OF PATENTS,
Late Agent of the U S Patent Office, Washington, (under the Act of 1857)
73 State Street, opposite Kilby Street,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States also, in Great Britain, France, and other foreign countries Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington

The agency is not only the largest in New England, although inventors have advantages in securing Patents, of examining the patentability of inventions, unsurpassed by, if not incomparably superior to, any which can be offered them elsewhere. The testimonials below given prove that more than a *success, at the Patent Office* that the subscriber, and the reasons why *in the best of cases, integrity and ability*, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional service so moderate. The luminous practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents

The same contains his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, rendering him able, beyond question, to offer superior facilities for obtaining Patents

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors

TESTIMONIALS

"I regard Mr Eddy as one of the most *capable and successful* practitioners with whom I have had official intercourse CHARLES MASON,
Commissioner of Patents

"I have no hesitation in assuring inventors that they cannot employ a person more *competent and trustworthy*, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office"

EDMUND BURKE,
Late Commissioner of Patents.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is now *pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges"

JOHN TAGGART

"During eight months, the subscriber, in course of his large practice, made on twice rejected applications *SIXTEEN APPEALS, EVERY ONE* of which was decided in his favor by the Commissioner of Patents. R. H. EDDY
